### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jon Shackelford on October 18, 2007.

The application has been amended as follows:

#### **IN THE CLAIMS:**

Claim 17, line 5: "a bearing insert" has been replaced with --a bearing body--.

Claim 17, line 6, the word "durable" has been deleted, the phrase "said bearing insert having a bearing body" has been replaced with --said bearing body being--.

Claim 17, line 10, "said bearing insert" has been replaced with --said bearing body--.

Claim 17, line 11, "said bearing insert" has been replaced with --said bearing body--.

Claim 17, line 12, "said bearing insert" has been replaced with --said bearing body--.

Claim 23, line 1, "said bearing" has been replaced with --said bearing body--.

Claim 24, line 1, "said bearing" has been replaced with --said bearing body--.

Claim 25, line 1, "said bearing" has been replaced with --said bearing body--.

Claim 29, line 2, "said bearing insert" has been replaced with --said bearing body--.

Claim 30, line 2, "said bearing insert" has been replaced with --said bearing body--.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or render obvious the claimed combination of claim 17, in particular the combination of features of a discontinuity extending generally radially through the bearing body and axially along the entire length of the bearing body, and the bearing body further including at least three radial slots extending radially outwardly from the inner surface to a termination point embedded within the bearing body, each of the radial slots having a distinct radial depth such that no more than two of the radial slots have an identical radial depth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Election/Restrictions***

Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between Species I and II, as set forth in the Office action mailed on September 27, 2006, is hereby withdrawn** and claims 26-29, directed to nonelected Species II are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is

anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01
